The consumer shall be billed for each lamp each billing period, and where the consumer is receiving electric service, such lighting charge shall be added to the regular electric bill.

TERMS AND CONDITIONS

1. The Cooperative shall provide lighting fixture, with lamp, photo-electric relay control, and when applicable, upsweep arm not over six feet in length and will mount same on an existing pole carrying secondary circuits at the rates listed above. The type of fixture and method of installation shall be in accordance with the Cooperative's standards.
2. If the Cooperative is required to construct new or extend any of its existing facilities to provide lighting service, the estimated cost of which shall exceed four times the anticipated continuing annual distribution revenue the consumer shall make a non-refundable contribution-in-aid of construction equal to the amount of the costs of construction or extension which exceeds four times the anticipated continuing annual distribution revenue. The Cooperative shall provide lighting by installing fixtures, poles, and associated materials from its inventoried items which shall be of standard manufacture.
3. The Cooperative will replace HPS or MV fixtures with LED fixtures at the request of the consumer subject to paragraphs 1 and 2 of these terms and conditions, provided, however, that replacement of operable HPS or MV fixtures with LED fixtures at the request of the consumer will require payment in advance for the cost of removal plus the unamortized installed cost of the operable fixture.

4. When the consumer requests a light to be installed along Public Roads, the light installation must meet jurisdictional standards. No lights will be installed until approved by the appropriate governmental agency(s).
5. Relocation at the consumer's request of existing facilities shall be prohibited, unless the consumer pays all relocation costs.

HOURS OF LIGHTING

All lamps shall burn from one-half hour after sunset until one-half hour before sunrise, every night and all night, burning approximately 4,000 hours per annum.

OWNERSHIP OF FACILITIES

All facilities necessary for service including fixtures, controls, poles, transformers, secondaries, lamps, and other appurtenances shall be owned and maintained by the Cooperative. All service and necessary maintenance will be performed only during the regular scheduled working hours of the Cooperative. The Cooperative shall be allowed 48 hours after notification by the consumer to replace all burned-out lamps.

TERM OF CONTRACT

Open order for twelve months unless the consumer or the Cooperative requests a written contract. In such case, the term of contract for the purchase of electricity under this schedule shall be such as mutually agreed upon, but not less than one year.

When the Cooperative is required to construct new or extend any of its existing facilities to provide lighting service, the term of contract shall not be less than four (4) years.

POWER COST ADJUSTMENT RIDER

The amount of charges calculated at the above rate is subject to any increase or decrease under provisions of the Cooperative's Power Cost Adjustment Rider, Schedule "PCA-1".
